

## Touch Footy Day in Bollon

Home to a large colony of koalas, Bollon is situated 634 kilometres west of the Brisbane on the Balonne Highway, between St George and Cunnamulla on the banks of Wallam Creek.

On Saturday 19th August Bollon hosted a community touch footy day with a great turnout of 50 players. This included a few police members and their families from St George.

For the past few years the school kids have been attending touch footy training on Monday's after school which has developed into these community touch footy days twice a year.

Saturday's game day ended with a grudge match between the Adult All Stars vs the Kids Dream Team, after the kids were talking it up pretty well about how good they were. They may have done all right in the sledging but unfortunately for them they were dominated on the scoreboard.
