

## Caloundra hosts dance for CanTeen kids.

CanTeen is a support group for young persons between 12 and 25 years that have been affected by Cancer. They run regular camps as part of their support programs and the Caloundra Blue Light team assist with these camps by providing the “disco” for the end of camp parties.

The latest one was held at Brookfield Community Centre on Tuesday 20th September and the theme for the night was “full moon party”. This was the first time Caloundra Blue Light have set up their equipment outdoors in the bush around the camp fire so the challenges of power and lighting had to be overcome safely and effectively.

It was a fabulous night and so heart warming to see these kids have such a great time. Music makes them happy and is a major component of the support given by the CanTeen group.

The only thing that dampens the happiness but makes it all so much more worthwhile, is that some of these kids may not be around for the next camp.
